

Roman Road Primary School Policy For Security and Personal Safety

The children and staff of Roman Road Primary School Primary School need to work and learn in a safe environment. This document is the security policy of our school and represents measures agreed between staff and governors to promote the security and personal safety of pupils, staff and visitors, together with the protection of the school premises

Our first concern should be for the safety of everyone in school. Safety, whilst obviously referring to physical well being, also includes the emotional protection of pupils, staff and visitors from abuse and other hostile behaviour. School security is intended to prevent such occasions arising and to deal effectively with such incidents should they arise, with the minimum of distress to the school and its occupants. As an overriding principle, the school should be perceived as an open, friendly and caring community. We should continue to exercise current good practice in being open and accessible but be mindful of risk

Daily Procedures

- During the school day all visitors and contractors are required to report to the school office, to present identification as necessary, to sign in and out and to wear a visitors' badge.
- All visitors into the school must be authorised by the Headteacher or a member of the Senior Leadership Team.
- All contractors should have notified the school in advance of their visit and have appropriate documentation with them (job sheet , company ID etc). They should liaise with the Administrative team or site supervisor who will check that the work has been completed to specification, sign accordingly, and ask the contractor to sign out of the Visitors Book.

doors at these times
